## President Tells Why He Called an Extra Session.

WASHINGTON, MARCH 5.—PRES-  
IDENT ROOSEVELT TODAY SENT  
THE FOLLOWING MESSAGE TO  
THE SENATE:  
"TO THE SENATE: I HAVE  
CALLED THE SENATE IN EXTRA-  
ORDINARY SESSION TO CONSIDER  
THE TREATIES CONCERNING  
WHICH IT PROVED IMPOSSIBLE  
TO TAKE ACTION DURING THE  
SESSION OF CONGRESS JUST  
CLOSED.  
"I ASK YOUR SPECIAL ATTEN-  
TION TO THE TREATY WITH THE  
REPUBLIC OF COLOMBIA, SECUR-  
ING TO THE UNITED STATES A  
RIGHT TO BUILD THE ISTHMIAN  
CANAL, AND TO THE TREATY  
WITH THE REPUBLIC OF CUBA  
SECURING A MEASURE OF COM-  
MERCIAL RECIPROCITY BETWEEN  
THE TWO COUNTRIES.  
"THE GREAT AND FAR-REACH-  
ING IMPORTANCE OF THESE TWO  
TREATIES TO THE WELFARE OF  
THE UNITED STATES AND THE  
URGENT NEED FOR THEIR ADOP-  
TION REQUIRE ME TO IMPOSE  
UPON YOU THE INCONVENIENCE  
OF MEETING AT THIS TIME."  
"THEODORE ROOSEVELT,

# SMOKE AND FOG CAUSE COLLISIONS.

ST. LOUIS, March 5.—A blanket of  
smoke and fog overhung the city today,  
there being no wind to dispel it. There  
were numerous collisions between street  
cars and vehicles but so far as known,  
nobody has been seriously injured. Three  
fourth-street transit cars were wrecked  
in a collision, the crowd of men and  
women on board being thrown from their  
seats and bruised. Traffic over the Eads  
bridge was impeded for several hours, the  
fog being so dense that objects two feet  
away were invisible.

# SMOOT APPLAUDED FROM THE GALLERY.

WASHINGTON, March 5.—No objection  
was made when Mr. Smoot's name was  
called. He received some applause from  
the galleries. Three newly elected Sen-  
ators—Ankeny, Clarke (Arkansas) and  
Stone, were not sworn in. The oath was  
not administered to Chandler. The total  
number who took the oath was twenty-  
six.

# GERMANY TO INCREASE NAVY

GERMAN BATTLESHIP KAISER WILHELM II.  
Aiming to get ahead of the United States and more particularly to reduce  
England's naval prestige, the German Government is making active prepara-  
tion to increase the Kaiser's navy to an appreciable extent. German ship  
yards are now being overworked in an effort to produce several new bat-  
tleships of the above class.

# WATER FRONT TERMINAL BILLS FAVORED.

## San Francisco Merchants Want the Gould Line to Come in and Denounce Opposition.

SAN FRANCISCO, March 5.—Public  
opinion here is utterly opposed to the ob-  
structions placed in the way of the bills  
providing for the leasing of certain sec-  
tions of the water front for railway ter-  
minal purposes. It is recognized that the  
lease is preliminary to another transcon-  
tinental line entering San Francisco and  
the establishment of another ferry be-  
tween this city and Oakland.  
It is the general belief that the op-  
position to the bills at Sacramento is in-  
spired by the other transcontinental roads,  
who do not relish the coming of another  
road to interfere with their traffic agree-  
ment and compete for through business.  
The merchants universally favor grant-  
ing the lease as they favored leasing  
China basin to the Santa Fe.

The commercial bodies have asked the  
Legislature to grant the Gould system the  
same privileges that were accorded the  
Santa Fe, and there is a feeling of in-  
dignation that opposition should be de-  
veloped in the San Francisco delegation.  
San Francisco wants the Gould system  
and desires it to be given a chance to  
compete on equal terms with its rivals.  
The feeling is that obstructing the bills  
is injuring San Francisco.  
"The bills ought to pass without ques-  
tion," said a member of the Chamber of  
Commerce. "The Gould people ought to  
have this lease because the more over-  
land roads we have the better it is for  
the city and State. The opposition is en-  
tirely outside the business and property-  
owning element, and one can easily guess  
who is inspiring it."

# IS AWARDED WILL MAKE A DAMAGES. TEST.

## Judgment for \$5,000 Damages Against Electric Company.

LOS ANGELES, March 5.—Lyman  
Newton, former baggageman at Long  
Beach, has been awarded \$5,000 dam-  
ages in his suit against the United Elec-  
tric Company of Long Beach. The case  
is a unique one in court records. New-  
ton threw a bucket of water on an in-  
candescent light at Long Beach and was se-  
riously injured by an electric shock. He  
set up the claim that an electric wire  
was improperly insulated and that the  
water from the bucket formed a connect-  
ing link in the circuit by which he re-  
ceived a shock that crippled him for life.  
The trial of the case was replete with  
technical testimony and ended with the  
verdict for the plaintiff.

## SELL REHAN COLLECTION.

NEW YORK, Mar. 5.—The contin-  
uation of the sale at auction of the Ada  
Rehan collection was marked by some-  
what better bidding. The sales for the  
day amounted to \$5,830, making the to-  
tal for the three days \$14,631.

# AT THE CAPITOL.

## Carrie Nation Stirs Up the Statesmen at Sacramento.

SACRAMENTO, Mar. 5.—Carrie Na-  
tion, the famous sacon smasher, was  
the center of attraction at the Legis-  
lature today. She came from her hotel,  
followed by a curious throng, and  
at once proceeded to the Assembly  
chamber, where she quietly took a seat  
in the lobby.  
If she had expected to be called upon  
for an address she was disappointed,  
for the Speaker failed to recognize her.  
The news that Mrs. Nation was in  
the Capitol spread rapidly, and the  
lobby of the Assembly chamber soon  
became so congested that the Speaker  
announced that he would have the lo-  
bby cleared if order were not main-  
tained.  
After sitting quietly in the Assembly  
for several minutes Mrs. Nation went  
to the Senate and took a chair within  
the railing.  
It was announced that she would  
speak at 12:30 o'clock, directly after  
the adjournment of the Senate.  
After the Senate adjourned at 12:30  
o'clock today Mrs. Nation ascended to  
the President's desk and delivered an  
address which continued for nearly half  
an hour. She was greeted with vocifer-  
ous handclapping and cheers.  
The most startling portion of her  
speech was the reading of a letter  
which had been handed her.  
The missive contained the declara-  
tion that improvised saloons are con-  
ducted in the State Capitol building,  
both in the bill filing room of the As-  
sembly and the "cigar-at-Arms" room  
of the Senate. She challenged  
any one in the large audience which  
filled the room to deny the assertions  
made in the letter, but received no an-  
swer.  
The letter further averred that stocks  
of liquor are maintained in the rooms  
of the State Lunatic Commission in  
the Capitol building and in the office  
of the Secretary of State and that  
liquors are given away there for the  
purpose of political persuasion.  
Again did she make an unanswered  
challenge to have it proven that the  
statements in the letter are not cor-  
rect.  
Mrs. Nation referred to the fact that  
Sunday is a legislative day in Califor-  
nia, and urged the law makers present  
to have that day set apart as one of  
rest.  
She declared that she is and has al-  
ways been law-abiding, and that she  
wished everybody in California was as  
crazy as she is said to have been.  
Cheers were again given after Mrs.  
Nation had concluded her remarks.  
She distributed seven hatpins as she  
wended her way back to her hotel,  
followed by a large company of small  
boys.

# BILLS ARE PASSED.

SAN DIEGO, March 5.—The opposition  
to the vaccination order of the Board of  
Education, by which over 200 children  
are out of the schools by reason of re-  
fusing to comply, resulted in a suit by  
W. H. French against F. P. Davidson,  
superintendent, and Mabel O'Farrell,  
principal. French has four children who  
are denied admittance to school for the  
reason stated. A writ of mandamus was  
asked for and granted, ordering that all  
children debarred because of not being  
vaccinated should be admitted to the  
public schools. An order was made by  
the court setting March 16 as the date  
for the defendants to show cause why the  
children should not be admitted.

# WABASH MEN HAVE NOT GONE ON STRIKE.

## Legal Battle Over the Injunction is Now Being Waged in Court— Conferences Being Held.

ST. LOUIS, March 5.—The Wabash  
strike situation is resolving itself into a  
legal battle for the dissolution of the in-  
junction granted two days ago by Judge  
Adams.  
Attorneys for the firemen and trainmen  
are still at work on the affidavits to be  
filed in court, showing why the restraining  
order should not be permanent.  
Whether these will be completed in time  
to meet the expiration of the injunction  
is a question.  
Grand Master Morrissey of the Broth-  
erhood of Trainmen, is of the opinion  
that the motion and affidavits may not  
be filed today.  
The possibility of the firemen and  
trainmen of the Wabash striking as in-  
dividuals without waiting for word from  
their leaders, is now being discussed. It  
is stated that the men are ready to go  
out at a moment's notice.  
Unless the restraining order is dis-  
solved, the engineers, conductors, telegraph operators, brakemen  
and track men to the number of 50,000  
may become involved in the struggle.  
Rumors of a secret compact between  
the men and the leaders to go on, even  
if the dissolution of Judge Adams' in-  
junction is not granted, are abundant.  
The rules of the brotherhood prohibit  
striking without the sanction of the  
grand masters of the order.  
At Wabash headquarters everything  
was reported quiet and the men still at  
work.  
At an early hour a conference was be-  
gun in the offices of Judson and Green,  
St. Louis attorneys. A. J. E. J. E. J.  
of Cleveland and W. T. Irwin of  
Peoria, with Grand Masters Morrissey  
and Hanrahan were present, as were al-  
so members of the local firm. They were  
in consultation behind closed doors for  
some time, deciding on a course of action  
to be taken in respect to the dissolution  
of the injunction.  
At the conclusion of the conference  
it was announced that Messrs. Judson  
and Green had become associated with

# WORRIED OVER BANK MEASURE.

## New Law is Now De- clared to be Un- constitutional.

SACRAMENTO, March 5.—The pro-  
ponents of the bill creating a new  
Bank Commission are considerably ex-  
cited over the fact that the measure  
is not constitutional.  
The bill was brought up in the House  
yesterday under a suspension of the  
constitution, ostensibly for the pur-  
pose of hurrying its passage to prevent  
the further incorporation of banking  
concerns which sought to take advan-  
tage of the law abolishing the former  
banking commission.  
The defect in the new banking bill,  
passed by the Senate and considered  
in the Assembly yesterday, lies in the  
fact that it not only provides for the  
creation of a new commission, but in-

**BRITT OUSTED FROM ATHLETIC CLUB.**

M'GOVERN AND HIS TRAINERS  
LEAVE NEW YORK FOR THIS COAST.

Jimmy Britt, who went to Portland to train for a contest with Jack O'Keefe, is not doing his work in the gymnasium of the Multnomah Amateur Athletic Club, as was his intention. Jimmy has been told that he is a professional and that he must not punch the club bag or use the club shower-bath. In other words, he was informed that he must train elsewhere. His action on the part of the club officials was not done in disregard to the lightweight, but simply because the organization is for amateurs only and has before prohibited the admittance of professional fighters. Britt has taken himself to another place where they are not so strict and says that his present quarters are just as good as those of the Multnomah Club.  
O'Keefe is hard at work for his battle with Terry McGovern, and says that if he loses he will retire from the ring. The people up north think that the California is up against a live one and will have to fight hard to come out on top.

Terry McGovern left New York yesterday for San Francisco. With him were his manager, trainer and sparring partner. As soon as the former champion arrives on this coast he will hire himself to a suburban town near San Francisco and go into training.  
McGovern comes to this coast with full confidence that he can defeat the champion, which by the way, is similar to Terry's fight with the latter's puzzled Corbett. The pugilist will last about fifteen rounds, or perhaps will go to the limit. He says that he will not try to win in a round, but will hold out and wear his man down.

**Y. W. C. A. FORMS AN ATHLETIC CLUB.**

ALL OF THE NECESSARY DUM-BELLS AND SPRINGBOARDS WILL BE PURCHASED.  
The members of the Young Women's Christian Association have decided to start a gymnasium and athletic club. Such was decided at a meeting held yesterday afternoon and the members left no time about it but went right to work and took up the carpet on the floor of the Y. W. C. A. building, removed the furniture and the room is to be furnished with complete apparatus.  
The gymnasium will be provided with a ping pong table, spring-board, dumbbells and all the necessary equipment necessary to a well-conducted athletic club.

**OAKLAND'S CHANCES FOR BASEBALL PENNANT.**

**Complete Roster of the Players Who Have Signed With the League—Ring Notes—Racing Results.**

With just one or two exceptions the clubs in the Pacific Coast Baseball League have their full quota of players. Out of the five clubs in the league it is hard to tell which has the pennant-winning team for 1903. Of the five teams, Oakland has the biggest aggregation of unknown quantities. The players making up the remaining nines are for the most part known to the fans, but Don Pietro Lohman's bunch of stars, with the exception of the hold-overs are substitutes to build on this coast.  
Lohman took months of time to select his players and he is of the belief that he has built up the aggregation that will this season win the championship. He has picked out his men with a view to stick work, and his clutch hitters will bat at a 300 clip. He has chosen twirlers who work with their left hand, as he thinks that a south delivery is more puzzling to the batter. He is confident that he has moulded a champion team.  
Who thought at the beginning of last season that the Oakland ball team was a winning aggregation? They were not picked out for stars then. This year's team is a harder problem than the one last year. He has not into the contest an entirely new outfield, and with the exception of Devereaux, the infield are

Pitchers, Inburg, Whalen, Arrelanes, Lindsey and Hodson.  
First base, Pabst.  
Second base, Burns.  
Shortstop, Shay.  
Third base, Irwin.  
Left field, Krug.  
Center field, Lynch.  
Utility, Delmas.  
SACRAMENTO.  
Catchers, Graham and Hogan.  
Pitchers, Glerdon, Cutler, Thomas, Young and Brown.  
First base, Townsend.  
Second base, Casey.  
Shortstop, Baker.  
Third base, Sheehan.  
Left field, Hildebrand.  
Center field, Doyle.  
Left field, Gannon.  
Utility, Thomas.  
PORTLAND.  
Catchers, Vigneux and Harlow.  
Pitchers, Engle, Shields, Thatcher and Smith.  
First base, ....  
Second base, ....  
Shortstop, Schmeck.

There is only one man on Lohman's list that may cause trouble and that is O'Leary, who will play in the garden. He is claimed by Frank Wilson, and if the latter insists up his claim, the league will have to settle the question.  
The teams from Seattle and Portland are made up largely of men that played in the Northwest League last year and it remains to be seen just how they act in better company than was their last season.  
If Mike Fisher is to be believed, then the pennant is already in Sacramento. Mike certainly has a strong collection of players and will probably get into the running earlier in the game than he did last season.  
Los Angeles will probably run well to the front. If the records of the players count for anything.  
The San Francisco team is composed of all star men; that is each player is surrounded with a record. Now, when a collection of feature men will mould into a team that will perform team work remains to be seen. At the present time Harris seems to have a handful of stars, but if his aggregation does not run into a unit, then his collection of grand-stand men will avail him nothing, for it's team work that wins.  
The following are the players in the Pacific Coast League and the clubs that they will play with:  
OAKLAND.  
Catchers, Lohman and Gorton.  
Pitchers, Cooper, Graham, Lee and Herr.  
First base, Brashers.  
Second base, Johnson.  
Shortstop, Fillman.  
Third base, Devereaux.  
Left field, Gandy.  
Center field, O'Hara.  
Right field, Baxter.  
Utility, Ellis.  
LOS ANGELES.  
Catchers, Spies and Cravath.  
Pitchers, Klodens, Wheeler, Mills, Gray and Risley.  
First base, Dillon.  
Second base, Hollingsworth.  
Shortstop, Toman.  
Third base, Hall (probably).  
Left field, Ross.  
Center field, Hoy.  
Right field, Hochman.  
Utility, Lawler.  
SAN FRANCISCO.  
Catchers, Leahy and Kelly.

**WOMAN NOW POPE ONLY POLICE ON SUSPECTED RESTING. TRAIL. READY.**

**Police Believe They are on Right Trail in Burdick Case.**

**Says he Gets Weak Have a Clew to the Staying in Bed. Thugs Who Beat a Woman.**

**BUFFALO, March 5.**—A house in the Elwood district is being watched day and night. The police decline to say why they are watching the house. Last night for the first time the detectives were withdrawn from the New York Central and other stations. This move is regarded as strong evidence that the police believe they know where the murderer is and that there is no danger of escape.

An important fact made public today is that on the morning when the body of Burdick was discovered in a top drawer in a table at the head of the couch where the body lay, was open. Associated with facts and circumstances uncovered since then, the open drawer points up, the police say, as a most important clue.

The police questioned the occupants of the Burdick house and were informed that the drawer was open when the body was found. In the drawer, the letters and papers were discovered, and on the floor were papers, indicating that they had been taken from the drawer and left where they fell. The police say that certain letters were taken from this drawer.

What is more, they claim to have in their possession at the present time, a last and strong card which they have not yet played.

The theory of the police is that the suspected woman, finding that Burdick's affection for her had begun to cool and that there was talk of his marrying another woman after securing his divorce, made an appointment with Burdick at his home. On her arrival he conducted her into his cozy corner where intrusion was least to be feared. The lunch on the table was for her. They visited, no one knows, how long. His indifference towards her was not concealed, and, awaiting her opportunity, she struck him down and in her frenzy and passion beat out his brains. Then she left. Before leaving she searched the table for the letters which she had written to him, finding them, she turned out the gas and stole away.

**ROME, March 5.**—Count Pecci, after his visit to his uncle, gave the Associated Press correspondent a full account of the Pontiff's condition, saying he would not hesitate to tell the truth, even were the Pope really sick.

"The Pontiff not only is not suffering from any specific sickness," said Count Pecci, "but it will be difficult to continue to keep him quiet, as he said to me: 'The doctor wishes that I should stay in my room until Monday, but I cannot have so many people waiting, who came to Rome purposely to see me. If I continue as well as I am at present, I shall resume my audiences on Saturday.'"

Continuing, Count Pecci said: "To the meanwhile the Pope has announced that he will assist tomorrow at the usual Lenten sermon, together with the Cardinals."

"Dr. Lippont would have liked the Pontiff to keep his bed, so as to regain his strength quicker, but the Pope said: 'I cannot do that. I am staying in bed, instead of strengthening me, weakens me. Besides, I need light and air.'"

"Yesterday the Pontiff arose at 4 o'clock in the afternoon, but today got up at 9 a. m. and will remain up until the evening. The Pope had a usual conference with Secretary of State Ruffini and employed the remainder of his time in reading the very many telegrams received, wishing to personally examine each of them."

Count Pecci ended by saying: "The best proof that there is not much matter with the Pontiff is that today he had for lunch a good-sized beef-steak."

**SENATORS TAKE THE OATH.**

**WASHINGTON, Mar. 5.**—The United States Senate met at noon today in special session called by the President. It was an interesting event, as such sessions do not usually occur except when a President of the United States is inducted into office. At the beginning of each new Congress—and this was the first session of the Senate of the Fifty-eighth Congress—the oath was administered to thirty Senators who take office for six years. Of these seventeen were re-elected as follows:

Allison, Iowa; Clay, Georgia; Dillingham, Vermont; Fairbanks, Indiana; Foraker, Ohio; Gallinger, New Hampshire; Hanford, New York; Kittredge, South Dakota; McNary, Louisiana; Mallory, Florida (serving on appointment until Legislature meets); Penrose, Pennsylvania; Perkins, California; Pettus, Alabama; Platt, Connecticut; Reed, New York; Spooner, Wisconsin; Teller, Colorado.

The oath was administered to thirteen new Senators, although one, Mr. Gorman, had previously served eighteen years in the Senate. The new Senators are:

Arkansas: Washington, Clarke, Arkansas; Fulton, Oregon; Gorman, Maryland; Heyburn, Idaho; Hopkins, Illinois; Latta, South Carolina; Long, Kansas; McCreary, Kentucky; Newlands, Nevada; Overman, North Carolina; Smoot, Utah; Stone, Missouri.

The Senate being a continuous body, its officers stay until their successors are chosen, so promptly at noon the body was called to order by President pro tem. The scene was a brilliant one, and not unlike the opening of every session of Congress. The galleries were filled at an early hour, and in the family and reserved galleries were friends and relatives of the new Senators. The desks of the new Senators could be distinguished by the waving of flowers which had been provided. The inviolability of the Senators was shown by the fact that desks and even chairs in some instances were completely buried under huge floral pieces and beautiful bouquets.

After the invocation, Mr. Bennett, the secretary of the Senate, read the proclamation of the President convening the extraordinary session.

Mr. Hear of Massachusetts, speaking for Mr. Burrows of Michigan, chairman of the Committee on Privileges and Elections, referred to the constitutional procedure of administering oaths to the new Senators and said that if there were any other procedure, the result would be a threat of the Senate might be kept out of their seats for an indefinite time on the presenting of objections without responsibility and never established before in the Senate by any judicial inquiry. The result of this, he said, would be a change in the political power of the government, which the people desire to accomplish which might be indefinitely postponed. Mr. Hear stated that questions of qualification should be prepared and acted upon by the Senate afterward.

The names of the newly elected Senators were called alphabetically and each was escorted to the desk by his colleagues.

As some of the names were called, there was applause in the galleries. That given to Mr. Gorman was especially noticeable.

Messrs. Spooner and Allison received great applause as they were escorted to their desks.

Mr. Smoot of Utah subscribed to the oath with an emphatic "I do." No objection was made to his taking the oath.

When Mr. Ankeny's name was called, his colleague, Mr. Foster announced that Mr. Ankeny was under a physician's care at his hotel. Three other newly elected Senators did not respond to the roll call—Messrs. Clarke of Arkansas, Gallinger of New Hampshire and Stone of Missouri. Messrs. Clarke and Stone were delayed, and Mr. Gallinger was called out of the city.

There were seventy-four Senators present. Messrs. Hear and Cockrell were appointed a committee to wait upon the President and inform him that the Senate was ready to proceed to business.

Mr. Tillman of South Carolina, holding in his hand a copy of the Congressional Record, arose to a question of personal privilege. He was proceeding to say that in the record yesterday morning there was a very remarkable speech when Mr. Pettus of Arkansas suggested that Messrs. Clarke and Stone were delayed, and a rule of courtesy to transact no business until the special committee had returned from its visit to the President. The chair agreed with him. Thereupon Mr. Tillman, at 12:40 p. m., moved a recess for an hour, which motion prevailed.

**RAILROAD MEN IN A RIOT.**

**PARKERSBURG, West Virginia, Mar. 5.**—Four foremen on the construction work of the extension of the Little Kanawha Railroad, part of the Gold system, assisted by a constable, suppressed a riot among thirty Italian laborers near Burnings Springs last night.

The Italians wanted to leave because work was delayed on account of high water. They were told they could not leave until they had worked out their railroad fare which had been paid from Chicago.

A battle ensued in which axes, clubs and revolvers were used. One Italian had an arm cut off and it is reported to have been fatally hurt. They are being cared for at the home of an American. After the fight, twenty-five Italians escaped to the woods and have not been captured, although warrants are out for their arrest.

### English System Discussed

ENGINEER TELLS OF DIFFERENCES BETWEEN AMERICAN AND FOREIGN EQUIPMENT.

In discussing the differences which exist between the English and American rolling stock of steam railways, a prominent railway official said recently:

"The whole situation may be summed up thusly: We American railways deal exclusively in wholesale. The English railways are almost wholly retailers. They do a small express business. The railroad collects its freight from the door of the small merchant in England and delivers it right at the door of the customer. Thus the railroad serves the small dealer and the business is mostly on the retail line. They give quick delivery, and must do this to serve their customers. They have to serve hundreds of thousands of small merchants who deal in small parcels, and this must be done immediately. So their system must and does vary from the American system. You may call it English conservatism, but you will find the methods and designs suit their needs and purposes."

"Our road-bed is not so compared with the English road-bed; it is merely a contrast. For complete and substantial road-bed we are outclassed. Even our own Pennsylvania is rather meager and dirty looking on returning from England."

"The English bridge is different. They have no pin girders. They put in stone arches wherever practicable, and, of late years, brick arches. This is a blue vitrified brick which is practically indestructible and very pretty and, from an engineer's standpoint, complete. I think we will have to come to their ways in this respect."

"They have no paralleling roads in England, as Parliament gracefully steps in and determines whether a new line is needed or not, and if not, it is not built."

"Another admirable feature is the pension system in English railway concerns. When an employee enters in the railway service he expects to remain there for the remainder of his life. His salary of office is practically secure. He seldom is promoted out of his class; still this is done in rare instances. He has, however, the assurance that when he is old he will be pensioned, and so feels his work is entirely bound up in the railway. A man in the signal tower, the general manager, are dropped out when too old and pensioned."

**NOTES AND PERSONALS.**  
**GATHERED ABOUT THE YARDS.**  
The sixty-five ship carpenters and caulkers who are employed in the building of the war float were laid off yesterday on account of the rain.

Changes being made in the oil pipe which supplies the feed for the stationary engines of the machine shops.

Work is progressing very slowly in setting up the boiler foundation for the two new stationary boilers for the Planting mill.

It is estimated that it will be a month yet before the new car float is ready to launch.

The platform back of the shops for loading freight is now completed.

**PROGRESS IN THE USE OF STEEL CARS.**  
Ten years ago the draw-bar pull of the average locomotive was something like 22,000 pounds. Within the last five years there have been freight locomotives put on the road with practically double this pull, or from 40,000 to 42,000 pounds. This, together with agitation on tonnage rating whereby local motive power is being replaced by the pulling limit, has put a very heavy strain on the first two or three cars. This is the prime reason for the demand and use of steel cars. The first steel cars were used on the Eastern roads as an experiment. Then it was found that the resistance per ton of load was much less with the rigid steel car than with the old wooden car. A 20 per cent saving is made with a 100,000 pound steel car as compared with a 60,000 pound wooden car. With anything like this saving one would not hesitate long to use such cars, provided the condition of the road warranted it.

**COMPARES PARTY TO CATERPILLAR.**  
NEW YORK, March 3.—Premier Balfour, speaking at a dinner of the non-conformist Liberal Unionist Association, treated Lord Rosebery's recent utterances in a spirit of banter, saying the London correspondent of the Tribune, and represented the Liberal Unionist party as a caterpillar in search of a new leaf.

**AMUSEMENTS.**  
A criticism, which is not at all disparaging in its nature, is made of the famous Klitzies Band of Canada. It is said by rival musical organizations that the Klitzies Band is not a band, but a conglomeration of Highland dancers, bagpipers and singers, with a big military band thrown in.

In fact, the Klitzies are an organization which has hit upon the idea of avoiding the slightest monotony of a musical performance by introducing several unusual numbers such as Scotch reels, flings, sword dances and horn pipes.

The novel union of klitzies and bare knees is both pleasing and picturesque. The large enthusiastic audiences which have cheered the Klitzies with storms of applause in over 200 American cities, are the best testimonials that can be offered as to the entertaining abilities of the band. The Klitzies will appear at the Macdonough next Saturday afternoon and evening.

**THE FATAL WEDDING.**  
Next Sunday evening, the melodrama of Theodore Kremer will be produced at the Macdonough Theatre. It is one of the most successful of the plays, which Sullivan, Harris and Woods have put on the stage. ### Blood Was Poisoned.

#### A HAPPY CURE AFTER USE OF TWO BOTTLES OF Paine's Celery Compound

##### THE SPRING SYSTEM CLEANSER.

Health is that natural state of the whole body in which the entire nervous system is so perfectly regulated that it can, without undue effort, perform its almost numberless and all-important duties.

The blood as it courses through the body must bear nourishment and life on poisons and death.

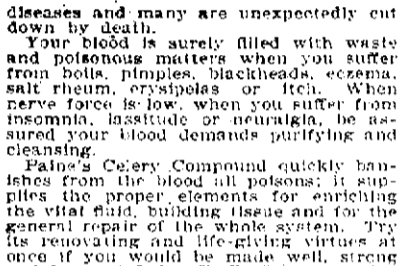

In the spring season thousands around us suffer from various forms of blood diseases and many are unexpectedly cut down by death.

Your blood is surely filled with waste and poisonous matters when you suffer from pimples, blackheads, eczema, salt rheum, erysipelas or itchy. When nerve force is low, when you suffer from indigestion, constipation, or neuritis, he assured your blood demands purifying and cleansing.

Paine's Celery Compound quickly banishes from the blood all poisons; it supplies the proper elements for enriching the vital fluid, building tissue and for the general repair of the whole system. Try its renovating and life-giving virtues at once if you would be made well, strong and happy. Judge P. P. Desvernine, of Havana, says:

"While I was in New York I read about Paine's Celery Compound and never thought I would ever get well. I only took one bottle of that wonderful discovery and found myself with better vigor and energy."

Mr. Thomas Young, Elmora, Pa., says: "I suffered very much from blood poisoning, and after doctoring for two months with my physician and receiving any good results, I tried Paine's Celery Compound. The use of two bottles completely cured me. All my thanks are due to Paine's Celery Compound."

### WHO IS E. L. BAIR?

To thousands of people in Oakland E. L. Bair is well known, and by them all is held in the highest esteem for his high character, honorable life, manly bearing and for his sterling qualities of head and heart.

To those who do not know him personally this brief sketch of his career is offered by the committee in charge of his campaign.

Mr. Bair was born in Burlington, Iowa, August, 1866, and is therefore in his thirty-seventh year. His parents removed to Denver, Colorado, where Mr. Bair had the advantage, afforded by the most excellent educational institutions of that city, graduating from the High school with all honors.

Mr. Bair's parents had planned a professional life for him, and in a measure he had prosecuted preparation therefor, but his active temperament led him to abandon it, and for the past seventeen years he has been engaged in the railroad business, as brakeman, foreman, yard master and conductor—attaining practically the highest position attainable by any employee in the transportation department; and, in every position, has commanded the confidence and esteem of his employers, and the good will and respect of his associates.

As Chairman of the General Grievance Committee of the Union Pacific System, he rendered most efficient service for both the employers and employees of that system. Coming to the Southern Pacific in 1893, his sterling worth was recognized, and he was made Chairman of the Local Grievance Committee of his division, in which capacity he was largely instrumental in effecting the wage schedule under which the employees of the Southern Pacific are now working.

It is much to say, for any man, that in this capacity he secured, and has retained, the entire confidence and respect of both parties affected.

Mr. Bair has been a resident of Oakland for the past ten years. His family consists of a wife and two children. His father and mother also reside here, in a home of their own—the fruit of the industry and frugality of their son, our candidate for Mayor of this city.

In passing, it may not be out of place to state that Mr. Bair's father is a veteran of the late war, is a member of Lyon Post of Oakland, G. A. R., and ex-State Chaplain of the order for California and Nevada.

Mr. Bair is a man of unusually fine presence, dignified bearing, pleasing address, and one that at sight inspires confidence—in short, he fits Sidney Smith's definition of a gentleman—and is one who will entirely grace the office of Mayor of this city.

In conclusion, we unqualifiedly and most confidently commend the candidacy of Mr. Bair to the people of Oakland, with the full assurance that, if elected to the position for which he was spontaneously nominated, he will prove as faithful to the trusts which thereby will be committed to him as he has been true and faithful in the past to every responsibility imposed upon him.

Moreover, if elected to the office of Mayor, Mr. Bair will devote to the duties thereof his entire time, and his undivided energy and thought, and will always be found on this side of the bay.

(Signed) CAMPAIGN COMMITTEE.

# MEETING OF THE

## MUNICIPAL LEAGUE.

The Municipal League of Oakland held a meeting in Becker's Hall last evening. The meeting was not in the nature of a public rally, but was more for the purpose of outlining the work for the few days remaining before election. Among the speakers were John L. Howard, candidate for Councilman at Large, J. W. Evans, another candidate for Councilman at Large, J. R. McGregor, candidate for Councilman in the First Ward, and R. H. E. Espey, candidate for City Attorney. The addresses of the candidates were read, and the members made short speeches. James K. Moffitt made a special address on the candidacy of John L. Howard. Mr. Moffitt paid an honest tribute of praise to the merits of Mr. Howard in his sentiments. When he had finished many of the members rose in their places and expressed at once their commendation of the speech of Mr. Moffitt and their hearty concurrence in his sentiments. Every member pledged himself to write to as many friends as possible on the subject of the candidacy of the Councilman in their particular wards. Plans were outlined and set in motion for the final rally at Maple Hall tomorrow night. A band of music has been engaged. Bonfires, oratory, and fireworks will be the order of the evening.

# GOVERNOR MAY BE

## AT FINAL RALLY.

The Republican City Central Committee met last evening in the Republican headquarters in the Eva Block on Thirteenth street. Several bills were audited and ordered paid. Plans were outlined and set in motion for the final rally to be held in Dietz Opera House on Saturday night. An effort is being made to have Governor Pardee speak on that evening.

# OAKLAND MEASURES AT

## SACRAMENTO.

# Delegation Will not Caucus any

## More—Alameda's Trustees—Educating Criminals in Prison.

SACRAMENTO, March 5.—"I will call no more caucuses of the Alameda county delegation in the Legislature. What's the use of it? It's all give and no take. I am not in favor of giving everything and getting nothing, and yet I have passed all the bills that I feel particularly interested in. Why should an Alameda county measure, at this late day, be defeated by an Alameda county caucus?"

These were the words of Senator Leavitt, chairman of the Alameda county delegation in the Legislature, today.

They indicate that there must be concession made somewhere, otherwise the original purpose of the delegation from Alameda county to help one another will fall of effect during these closing days of the session when bills in which members are greatly interested are coming up for passage.

**BILLS IN DISPUTE.**  
There are several bills now before the Legislature in which members of the Alameda county delegation are interested and upon which also they are divided. Among these measures are the Second Police Bill for Oakland, which has lain dormant for several weeks because it is understood that the Alameda delegation is divided as to the advisability of passing it. This division was occasioned mainly by the determination of Assemblyman Foster not to vote for the measure, on the representation of some of his constituents that another court was not needed in Oakland. It was claimed, also, that Dr. Foster had taken his stand because a request to do so had been preferred by Governor Pardee. Both the doctor and the Governor deny that such a request had been made. When the members of the delegation reading outside Oakland learned of the division, among the delegation from that city they decided that they would take no part in the matter and would let the affair be settled by the Oakland delegation. The House took a similar stand and said it would do nothing until the Alameda county delegation could harmonize on the subject.

**ASSESSOR DALTON'S BILL.**  
Another bill upon which a division has taken place is the bill introduced by Assessor Dalton for preventing the sending of his bills for \$2,000 for extra clerical work from going before the Supervisors. This bill would receive the united support of the Alameda county delegates who want the bill passed, but passed by those of the delegation who are opposed to the Police Court measure would change their attitude and vote for the bill.

**DALTON WILL NOT GIVE IN.**  
County Assessor Dalton is here and has been spoken to with a view of having him induce some of the opponents of the Police Court measure to support of his measure by proponents of the Police Court enactment. Assessor Dalton, however, declined to take any action in the premises, declaring that he was entitled to what he believed in, and that he would not get it anyway, even if he had to ask the court to issue mandamus.

Events of the next few days will show how the cat jumps.

**BILL POSSIBLE AGAINST THE ALAMEDA TRUSTEES.**  
Senator Knowland and Assemblyman Bates today read with a great deal of interest and no little belief in the success of the bill, introduced by the Trustees of Alameda last Monday night, when that body had under discussion the amendment offered by Messrs. Knowland and Bates to the City Justice bill, which keeps Tammany in office until January 1, 1905, thus enabling him to serve out the full term for which he was elected.

**TAPPAN'S AGREEMENT.**  
"Had the bill passed in its original form, I feel free in stating it would not have been signed. This statement is under most direct information. Under the circumstances, Mr. Bates and myself thought that the city would save money by accepting Mr. Tappan's offer. With this in view, we made a special trip to Alameda a week ago Saturday evening, met Mr. Porter, talked over the whole matter, and he concurred in our judgment. He stated, however, that he could make no written agreement. Mr. Tappan's agreement suggested in writing—the agreement relative to refund a part of the salary. Such an agreement was obtained from Mr. Tappan, for it was sent to me by mail from San Francisco a few days later.

**ABOLISH THE TRUSTEES.**  
"Being in the full possession of these facts, the Trustees have refused Mr. Tappan's offer, and if the office cannot be abolished by an attack upon the legality of the act, then the city must pay the full amount and the taxpayers will be the sufferers. The Justice bill was amended passed the Senate Tuesday morning. A happy solution, perhaps, of the whole matter would be a new bill abolishing the City Trustees. I noticed that Trustees Hammond and Miller, according to the reports, suggested that the backs of the representatives be offered. Did I not fear that perhaps these two gentlemen had been misquoted I would make some very pertinent remarks concerning a state of affairs in which the city is now involved. The incident is closed as far as I am concerned.

felt no annoyance at all in the matter. R. M. FITZGERALD ON THE PENITENTIARIES.

The secret investigation, which the Special Committee of the House is making into the conduct of the State penitentiaries, was attended yesterday by R. M. Fitzgerald of Oakland, one of the members of the Prison Board, who spoke in a manner which caused the inquirers no small amount of surprise.

"There is no need to say that we are glad this investigation has been commenced. We hope it will be productive of good. Punishment has been inflicted in the penitentiaries, but there must be punishment of some kind for some of the inmates in such cases. When that punishment has been excessive we have discharged the men who were guilty of it. It makes little difference to us what the punishment is, provided it tends to the maintenance of order and discipline. There are some convicts whom even the severest punishment cannot affect. I am not, of course, an advocate of punishment which maims and cripples the convict. In cases where convicts have been punished severely when I was at the prison, I have gone to the warden and said, 'See, here, this thing must stop.'

**EDUCATING CRIMINALS.**  
"The penitentiaries are no worse than they ought to be expected to be under the present system. You are educating criminals in the penitentiary to be worse than criminals, just as you are educating men at the university to be scholars. When questioned as to what he thought of the capacity of Wilkinson as a warden, Mr. Fitzgerald replied: "Mr. Wilkinson lacks tact in the management of men, and a man who lacks tact, lacks a desideratum which is essential in a position like that which is held by Mr. Wilkinson."

**ACQUIRE AND DISCIPLINE.**  
Regarding Acquire, Mr. Fitzgerald said: "They may say what they want about Mr. Acquire, but he has broken up the opium traffic in the penitentiary and has introduced a discipline which is the most perfect that the penitentiary has ever known."

Mr. Fitzgerald was asked what he would suggest as a means of improving the penitentiary, and replied:

**PROGRESSIVE CLASSIFICATION.**  
"The progressive classification system should be introduced, such as they have in Europe and other countries. They are endeavoring to inaugurate in Colorado. By this means, the convicts are placed in classes according to their conduct, and an attempt is made to have them cast aside their criminal disposition and move on to a higher moral plane. I have seen penitentiaries in other States and in Europe, and this is a conclusion which I have arrived at."

**DOUBLE TAX ON SALOONS FLOORED IN THE SENATE.**  
Curtin's bill authorizing Supervisors to tax business inside cities and incorporated towns, which involves the principle of double taxation, has been practically killed in the Senate by the adoption of an amendment, which limits the power of Supervisors to the licensing of lines of business simply outside cities and incorporated towns. This amendment provoked a number of lively speeches in which the advocates of double taxation were worsted. Senator Leavitt submitted questions in lieu of a speech, and these questions had a very sensible effect upon the members, and were as follows:

"Is it not a fact that the saloon-keeper is required to pay his property tax to city and county? Has he not to pay a license tax to the city? Has he not to take out a license to sell liquor? I know of no law that he is to pay taxes four or five times, and now do you want to throttle him again for the fifth or sixth time, because he is in a certain line of business? I am opposed to the bill."

**BANK APPLICATIONS FILED WHILE LEGISLATORS WRANGLE.**  
The rush of would-be bankers to secure charters during the interval that the new Bank Commission is passing through the Legislature continues. Secretary Curry last night received a decision on the subject from the Attorney General, which held that the applications were legal as there is no banking law in California.

These applications for charters are not made as a rule for the purpose of establishing a banking business, but for the purpose of securing a charter which may sometime have a monetary value to people who wish to engage in that line of business. Some years ago Secretary Curry received a decision on the subject from the Attorney General, which held that the applications were legal as there is no banking law in California.

**ADVERTISEMENTS.**  
THIS SPACE IS LEASED FOR THE PRESENT MUNICIPAL CAMPAIGN BY A COMMITTEE OF PERSONAL AND POLITICAL FRIENDS OF Z. T. GLIPIN, INDEPENDENT REPUBLICAN NOMINEE FOR MAYOR OF OAKLAND.

**"Honest Zach" is Not a Gush Talker.**  
Abe Lincoln on the "stump" would not have the influence in 1903 that he had in 1860. The mechanical phonograph has given a set-back to the business of standing on the "hustings" and, like a street-corner fakir, advertising one's itch for office.

It is the prestige of the man that wins the political office for him, and what other candidate for Mayor of Oakland, this campaign, can approach the popularity of Z. T. Glipin with our voters—a vantage that has been earned by twelve years of loyal service to this municipality as Treasurer and Tax Collector? And Z. T. Glipin was strong with the people of Oakland before he became head of the financial bureau of this city?

**Two Proud Lawyers At the City Hall.**  
Melvin C. Chapman was the last lawyer Mayor of Oakland and his term expired in 1893. His appointee for City Attorney was obviously his subordinate. Now, we elect the City Attorney and that official is the equal, in various respects, if not the superior, of the Mayor of our town. What a chance for imbroglios between Mayor of Oakland and City Attorney, if the first-named functionary is also a "legal light"!

Better solve the problem of putting a business man into the Mayor's chair, and the candidate most eligible for that duty is "Honest Zach" Glipin!

**Mayor of Oakland Is not a Monarch.**  
Under the present charter of Oakland the Mayor is one of the three members of the Board of Public Works, which body has to do with the public thoroughfares, and the Mayor is one of the three persons who constitute the Board of Police and Fire Commissioners. Eight members of the City Council can pass a veto "over the Mayor's head," and the City Council is disbursing of the town's revenue; of the "spot cash" in the municipal purse!

Is it not apparent to the "level-headed" voter that the man for Mayor of our town can be found in the Second Ward—and his name is Z. T. Glipin!

# "WHAT'S THE LAW BETWIXT CHIEF AND HIS FRIENDS."

# Hodgkins Smothering a Criminal Case at City Hall—Makes a Private Deal With Prosecutor.

Chief Hodgkins appears to have the same peculiar idea of the law that the late Tim Campbell of New York entertained regarding the constitution. When President Cleveland denied one of Campbell's requests on the ground that to comply would violate the constitution, the Tammany Congressman exclaimed:

"What's the constitution betwixt friends?"

Similarly the Chief of Police seems to think the law should not interfere with any agreement he may privately enter into. Here is a case in point: Last Monday two girls from Chicago were arrested on a charge of stealing jewelry from a prominent family. One of them confessed to the theft, alleging that she was instigated thereto by two men whom she and her companion accompanied from Chicago. The men were arrested and the jewelry found in their possession.

Here is a plain case of admitted and proven theft, but the Chief of Police appears to be juggling with the matter mysteriously for some occult reason of his own. He declines to let the public know who was robbed or what he proposes to do with the thieves.

He says he gave the family that was robbed his word of honor, which the law must not interfere with, that their name should not be divulged.

In answer to the suggestion that the offenders cannot be prosecuted and legally punished without divulging the names of the persons who have suffered from their criminal depredations, the Chief naively says he does not know what he will do with them yet.

Apparently Chief Hodgkins needs some instruction as to the law governing the compounding of a felony. The administration of the criminal laws is not a matter of private understanding between the Chief of Police, and thieves and their victims, although the head of the Oakland police force appears not yet to be made conversant with this important fact.

His business is to arrest and prosecute criminals, and not to affect private settlements—without publicity—for the return of stolen property.

The recent raids on the cigar store pool rooms is illustrative of Chief Hodgkins' peculiar way of doing things. A year ago THE TRIBUNE exposed this contraband bookmaking on our principal streets, even pointing out the places where bets on the races were openly taken, even from boys and women, but the astute and alert head of the Police Department could see nothing wrong. He could obtain no evidence of what was as plain to the wayfarer as the street signs.

But he made a gallant show of doing his duty by arresting a few Chinese for dealing lottery. By and by his desire to suppress Chinese lotteries lost its keen edge, and the Oriental gamblers plied their trade as unmolested as the merry, merry bookies in the cigar stores.

While the white rangers are being run in with virtuous enthusiasm, the almond-eyed lottery men are doing business at the old stand in immunity. Having had their little experience with the Chief's perfunctory display of vigor, they can enjoy their respite while the white man takes his turn on the stage in the comedy of police vigilance.

But what's the law betwixt the Chief of Police and his friends?

# JAMES DONOVAN IS SERIOUSLY INJURED.

While painting the ferry boat Solano at Benicia, last Monday afternoon, James Donovan of 709 Third street, Oakland, was seriously, if not fatally injured. A train, in boarding the boat struck a projection on a scaffolding upon which several men were working.

All the men were thrown to the deck and Donovan fell from the highest point. He was rendered unconscious and when taken to the railroad hospital in San Francisco it was found that he had received a number of broken bones. He now lies in a critical condition at that institution.

Mrs. Donovan, the injured man's mother, did not learn of her son's accident until yesterday afternoon.
